This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 760928

## School Purpose

Hosted and co-organized by Green Decision in collaboration with the Institute of Occupational Medicine, Ca' Foscari University, BioNanoNet and Warrant Group, the first edition of a series of Training Schools organised within the EU funded Horizon 2020 BIORIMA project, will take place in the historic centre of Venice, Italy on 16 – 20 April 2018. The School aims to transfer the state of the art knowledge on a variety of topics from key experts to the new generation of nano-environmental, health and safety, and biomedicine professionals.

## Target Audience

The 1<sup>st</sup> BIORIMA Training School is especially designed for personnel from research and academic institutions as well as from industry, governmental agencies and hospital departments. The School is aimed at senior researchers, young scientists, PhD students and in fact anyone interested in safe nanotechnology, risk assessment and nano-medicine.

## School Location

The 1<sup>st</sup> edition of the School will take place in Venice historical centre (Italy). The lectures will be held in Ca'Foscari Palace - Aula Baratto and Ca' Foscari Malcanton Marcorà - Sala Giovanni Morelli. The lecture rooms are equipped with Wi-Fi and offer modern conference appliances.
